

## Postdoctoral Researcher Position at the University of Tübingen (ALICE Group)

The „Matter under Extreme Conditions“ group at Tübingen University invites applications for a post-doctoral position to work on the analysis of experimental data from the ALICE experiment at the Large Hadron Collider. Good knowledge in C++ and Root-based analysis software is essential.

The position is initially for one year, but can be extended for up to three years. It also involves teaching (4 hrs/weeks). Qualified candidates must have a Ph.D. in experimental nuclear or particle physics. To apply, send the following to Prof. Hans Rudolf Schmidt: a letter summarizing qualifications, curriculum vitae, a statement of research interests and expertise, and contact information for three references. Review of applications is ongoing and will continue until the position is filled.
